

sheards

Chartered Accountants & Business Advisors

Are you experiencing cash flow problems?

With our debt collection service we can help

Cash is the lifeblood of a business, but with so much emphasis usually put on profitability, it can be easy to overlook this fact. Of course, the bottom line is important, but poor cash flow management can drive a growing and/or profitable company out of business.

Sheards are delighted to be able to offer the perfect solution for small business owners with our debt collection service.

If you would like assistance in improving your bank balance then please let us know. We will arrange a meeting with our experienced credit controller at which we can discuss your requirements and tailor a service that suits you and your business.

What our clients say:

"Sheards provide us with a complete outsourced solution to our accounting requirements. In addition to our payroll, bookkeeping and VAT returns, Sheards are also responsible for debt collection from our clients. At the outset we discussed our collection process and how Sheards could fit into that and indeed we streamlined it further after their input. It is a big weight off my mind and totally seamless with the other services Sheards supply us.

Outsourcing our debt collection allows us to concentrate on the areas of the business that needs our attention. I would, and have recommended Sheards for their knowledge and service."
